PROFESSIONAL SUMMARY

Strategic Tech Lead with 13+ years of experience building scalable web and mobile ecosystems using Node.js, Angular, React, and AWS. Leveraging an M.Sc. in Psychology to foster high-performance engineering cultures, optimizing team dynamics, and mentoring developers through an empathetic, people-centric leadership approach. Expert in transforming legacy monoliths into high-performance microservices and leading cross-functional teams of 10+ to accelerate release cycles by 30%.

TECHNICAL EXPERTISE

Frontend:	Angular, React, TypeScript, JavaScript, HTML5, CSS3, Ionic
Backend:	Node.js, Java (Spring MVC), Python, PHP, REST APIs, Microservices
Cloud & DevOps:	AWS (Lambda, S3, RDS, EC2), Bitbucket, Git, JIRA
Databases:	MySQL, PostgreSQL, MongoDB
Tools:	Stripe, Twilio, OAuth, JWT, Clover, Selenium, Agile/Scrum

PROFESSIONAL EXPERIENCE

Technical Lead | WebAppClouds Software Solutions
MAR 2022 - Present

- Directed a team of 10 engineers to deliver high-availability systems contributing to $1.2M+ in annual revenue.
- Applied psychological leadership principles to mentor developers on unified coding standards, increasing delivery velocity by 30%.
- Refined code quality frameworks, resulting in a 20% reduction in post-release defects.

Team Lead | Appcloud Software Solutions
DEC 2019 - FEB 2022

- Architected microservices that reduced system load times by 30% and modernized legacy platforms for enterprise scalability.
- Enhanced reliability by implementing structured QA strategies, cutting production issues by 50%.

Senior Associate | Cognizant
DEC 2018 - DEC 2019

- Engineered scalable RESTful APIs handling 500,000+ daily concurrent requests with <200ms latency for full-stack Node.js and Angular systems.
- Decomposed legacy monolithic architectures into 15+ modular microservices, increasing deployment frequency by 50% and enhancing maintainability.
- Honored with the Spot Award and Shining Star Award for consistent delivery excellence.

Senior Software Engineer | Appcloud Software Solutions
JAN 2018 - DEC 2018

- Managed technical delivery for a team of 10, ensuring high-quality releases under aggressive timelines.
- Boosted customer satisfaction by 20% through proactive system stabilization and performance tuning.

Associate Consultant | Vedic Systems MAR 2013 - JAN 2018

- Scaled system performance while reducing defects by 40% through rigorous debugging and optimization.
- Developed a modular microservices framework that slashed feature deployment cycles by 40% and improved throughput by 25% across Java/Spring MVC applications.

KEY PROJECTS

STX Cloud: Designed a scalable booking platform handling 50,000+ monthly transactions with Stripe/Clover integration and 99.9% uptime.

TCIMApp: Developed a mission-critical real-time tracking system processing thousands of concurrent data points for railway logistics.

WGVS: Scaled a global video delivery platform on AWS to support high user concurrency and seamless streaming.

EDUCATION & CERTIFICATIONS

- **Master of Computer Applications (MCA)** - Osmania University (2011)
- **Certified Scrum Master (CSM)** - KnowledgeHut (2016)
- **M.Sc. in Psychology** - Dr. B.R. Ambedkar Open University (2021)
